

Dean Healdsburg Branch ❀❀❀

Thank you for sending me to this absolutely amazing camp. This camp is just an incredible opportunity for me and I am deeply grateful that you have chosen me to attend this camp. My favorite thing about the camp is the lasting friendships that I have made. I am so delighted that we've been able to make friendships with these amazing, beautiful, and smart women. I have also enjoyed the subject matter that have been learning about this week. I chose my course class as chemistry and even in the short time I had the class I learned so much. I have really immersed myself in the subject and I have really enjoyed learning about chemistry and thanks to you I have realized that I want to pursue a career in chemistry in the future. This camp has provided such an enriching experience and this may well positively affect me for years or even my whole life and for that I am truly grateful.

— Sincerely, Val
