

Dear Healdsburg AAUW branch,

Thank you for this Opportunity. It's nice to meet girls that are also interested in engineering like me. These past few days I've been learning and doing hands-on activities. I learned how to solder and build my own mini decorative robot that was able to move around. I enjoyed working in groups and combining ideas to make things work. Although I was away from my family I felt at home. Once again I am so grateful for this opportunity.

Thank you

-Valeria R-
