

Dear Healdsburg Branch, June 24, 2023

Thank you for letting me attend Tech Trek. I have had such a great time attending this camp. In my core class we learned how to make a wire out of tin and tape in order to turn on a lightbulb. In engineering we are making cars made from mousetraps. The girls in my dorm group are really nice and funny. We get along with each other really well and we have made strong connections with each other too. I am really grateful for the opportunity you have given me.

Sincerely,

Brenda T

Thank

You!!!
