

Sincerely,
Daniella H

Dear Healdsburg AAUW,

6/22/23
Daniella
H

The opportunity to go to Tech Trek has been a wonderfully and very opening opportunity and experience for me. Because of Tech Trek I was able to see a fish ladder for the first time and touch a catfish for the first time. I learned ~~new~~ and interesting things that I wouldn't learn in school for probably years. I learned about finances and see the star, but it was foggy so we couldn't see stars. I made great friends that I could laugh and dance with. I could be comfortable with them. The classes made me fall in love with science and I hope to come back as a counselor. Thank you so much.
