

July 28, 2023

Dear Healdsburg AAUW Branch,

Thank you so much for giving me the opportunity to spend a week at Tech Trek. Since I got accepted into Tech Trek I had been looking forward to Professional Women's Night and it was even better than I expected. I loved that the presenters had different types of jobs and experiences. My favorite was Lucy's presentation because she works with animals and that's what I want to do when I'm older.

I also really enjoyed meeting new people. At my school it's hard to find other people that share my interests but at Tech Trek everyone enjoys the same things I do so I felt very comfortable. My doormates were all very nice to me and I know that I can now count on them if I ever need anything. Tech Trek has made me get out of my comfort zone and gain confidence.

Again thank you for giving me and other girls the chance to go to Tech Trek.

Sincerely,

Jessica
